

Monaco iter

International Fusion Energy Days

Under the High Patronage of His Serene Highness Prince Albert II of Monaco

Partnership with:

PRINCIPAUTÉ
DE MONACO
UN RÔLE À PART DANS LE MONDE.

December 2-4, 2013

Grimaldi Forum, **Monaco**

MIIFED 2013

With the ITER project now in full construction, it is a good time to showcase what has been learned so far in this unprecedented international collaboration for fusion. MIIFED 2013 aims to facilitate scientific cooperation and technology transfer and prepare the groundwork for future fusion reactors.

Call for posters

By sharing your latest research you can contribute to this important event in the world of fusion.

Go to **www.miifed2013.com** to submit your abstract before **September 30, 2013**.

The best poster presentations will be awarded with a visit to the ITER site.

POSTER CATEGORIES

TECHNOLOGY

- Power plant design
- Construction
- Materials • Magnets
- Cryogenics and cooling systems
- Remote handling
- Electronics
- IT/Software • Heating • Fuel cycle
- Diagnostics • Other • ITER activities

SCIENCE

- Fusion physics • Plasma physics
- Magnetic field theories and modelling
- Magnetic field experiments
- Materials for high energy physics
- Plasma-wall interaction • Modelling
- Data collection and storage
- Safety, environmental and economic aspects of fusion

IMPORTANT DATES

September 30, 2013

Deadline for submission of Abstracts

October 20, 2013

Early Bird Registration
